**JUST
PUBLISHED!**

*Who are the leading
lumber producers in
the U.S. and Canada?*

*How much does the
industry spend on
capital improvements?*

*Who are the leading
panel producers?*

*Who sells specific
products?
Where can I find them?*

*Where do I go for
industry information?*

Information Published Nowhere Else!

This all-new reference compiled by the editors of FOREST INDUSTRIES contains a wide range of information about North America's lumber and panel producers. The book has been designed to answer the most frequently asked questions about the industry.

Leading lumber producers. The Factbook gives current production figures from nearly 700 hardwood and softwood producers in the U.S. and Canada. It also includes historical data on lumber production.

Leading panel producers. The Factbook gives current capacity and production figures from the leading North American producers. This comprehensive listing includes hardwood plywood, softwood plywood, waferboard and OSB, particleboard, MDF, hardboard and insulation board.

Capital spending. An exclusive survey shows exactly what capital expenditures were made in 1986 and what

are planned for 1987-88, by company and by type of project.

Detailed product listings. For the first time ever, FOREST INDUSTRIES editors have compiled a thorough listing of who makes what, and where the products are sold. Information is provided first by producer, and then cross-referenced by product and species. Result: an easy-to-use guide for wood products buyers.

Information sources. The Factbook contains a detailed section on sources for industry information. It includes lists of industry associations, as well as state, provincial and federal contacts. To help you find answers quickly, it provides names, addresses, and telephone numbers.

Plus, much, much more: Mergers/acquisitions • Housing statistics • U.S. and Canadian import and export data

FOREST INDUSTRIES • Editorial Department • 500 Howard Street • San Francisco, CA 94105 • (415) 397-1881

Please send me _____ copies of the FOREST INDUSTRIES 1987 NORTH AMERICAN FACTBOOK at \$77 each. After 10 days if I am not fully satisfied with the book, I may return it for a full refund or cancellation of invoice. (CA, GA, IL, MA and NY residents: please add sales tax.)
